

GET THE FIFO ADVANTAGE

Know what employers want. Know where to look. Know how to prepare.

APPLY AHEAD OF THE PACK

Readers gain a practical advantage over applicants who have not done the same preparation.

The handbook shows you what employers scan for - role fit, location, work rights, availability, safety mindset and verifiable experience. By teaching you how to present that evidence, it can make you a better-prepared, more attractive candidate on the FIFO job market.

BUILT FROM FIRSTHAND FIFO EXPERIENCE

Written and developed by people who have done it themselves.

They have searched for FIFO jobs, secured work, moved to Australia and worked FIFO. This handbook brings together what they wish they had known before taking that step - practical knowledge you can now use to prepare with more clarity, avoid common mistakes and start stronger.

FROM FIRST DECISION TO YOUR FIRST SWING

- Choose the lifestyle, target role, backup role, point-of-hire hub and rosters that match your goals.
- Build your visa file, financial buffer, role-focused resume, recruiter pitch, application plan and interview evidence.
- Prepare for arrival, medicals, the written offer, mobilisation, your first swing and the first 90 days at work.

YOUR FIFO JOB-SEARCH MAP IS INSIDE

The handbook gives you curated lists of FIFO job boards, company career sites, contractors, camp providers, recruitment agencies and labour-hire channels - with relevant websites listed and guidance on how to use them effectively.
